Dear Colleagues:

The Asia-Pacific Space Geodynamics (APSG) Project Central Bureau and the Organizing Committee warmly invite you to participate in the 2015 APSG International Symposium on the theme of « **Geodesic Datum and Regional and Terrestrial Reference Frame Realization**», to be held in MOSCOW, capital of the Russian Federation, 24–28 August, 2015.

Additional detail about the Symposium, will be exposed in the near future on the Symposium website (<http://apsg2015.inasan.ru>) and with a second Circular.

Themes (Tentative)

1) Space Geodesy Techniques and Progress

Space Geodesic Techniques, such as GNSS, VLBI, SLR and DORIS. Observational Results and Methods of Data Processing, GLONASS for Precise Positioning.

2) Earth Gravitational Field and Height Datum

Gravity Satellite Techniques and Future Missions, Gravitational Field Model and Integrated Global Height Systems

3) Regional Crustal Structure Movement, Coseismic and Postseismic Crustal Deformation,

Regional Crustal Structure Movement under Global and Regional Reference Frame, Model, Explanation, Mechanism for Coseismic and Postseismic Crustal Deformation and Earthquake Local Mechanism, Volcanic activities.

4) Terrestrial Reference Frame Realization

Earth Rotational Movement, Geocentric Movement, Theory and Methods for Global and Regional Reference Frames Realization.

Venue of Workshop

Moscow, Russian Federation. Main Building of the Russian Academy of Sciences, Leninsky prospect, 32.

Formal language of Workshop

English

Registration Fee (400 USD)

Important dates
